G2 REVIEW

G2 Crowns SurveyGizmo a Winter 2020 Leader

SurveyGizmo ranks first overall ahead of Qualtrics and SurveyMonkey

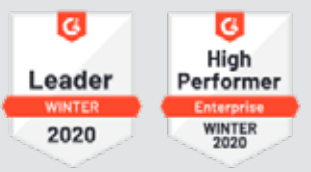

Four times a year, G2 compiles the results of almost a million reviews from users of different products. In order to score in the survey, a company needs to have more than 50 actual users add reviews. This is how G2 provides real-time and unbiased user reviews to help people objectively assess what is best for their business.

THE RESULTS.

G2 named SurveyGizmo Most Implementable in the Enterprise category, as well as Overall Leader and High Performer in Enterprise Feedback Management for Winter 2020. Combined with our Overall Leader, Mid-Market, and Small Business Leader in Surveys, plus this means that SurveyGizmo is one of the best solutions available for companies of all sizes.

“I don't believe that we've even scratched the surface of what it can do.

SurveyGizmo is fast and accurate. The look and feel and ease of use of the SurveyGizmo tool is outstanding. Our team needs to do more to utilize this excellent service. I don't believe that we've even scratched the surface of what it can do. We have been able to survey internally to obtain quick data from team members who work in multiple offices.
